

PACADEMY

PAACADEMY: The Right Name, The Right Platform

We want to be clear about our corporate identity: Our platform's official name is PAACADEMY. The two 'A's are an integral part of our brand and represent Parametric Architecture's innovative educational vision.

On our platform, you'll find:

- Advanced design education
- Professional development program
- Workshops with industry leaders
- Special events and seminars

To reach the correct destination: www.paacademy.com

Remember, it's PAACADEMY with two 'A's – where computational design education meets excellence.

Important Note

We are PAACADEMY (with two 'A's), not PACADEMY. While it might seem like a minor detail, those two 'A's make all the difference in finding us online.

PAACADEMY is the official learning platform of Parametric Architecture, offering cutting-edge courses in:

- Computational design
- Architectural innovation
- Digital transformation

When searching for us, remember: double 'A' for double excellence!

You can use these versions across different sections of your website, adapt them for social media posts, or customize them according to your specific needs. Each version is crafted to be clear, memorable, and emphasize the correct spelling of PAACADEMY.
